Ordinary Council – 24 May 2021

Agenda Item 12.4 - Junior Skate Facilities - Community Consultation Feedback

This page is intentionally left blank

COMMUNITY ENGAGEMENT SUMMARY

Junior Skate Facilities
May 2021

COMMUNITY ENGAGEMENT SUMMARY: JUNIOR SKATE FACILITIES

Introduction

The purpose of this report is to provide details of the community consultation undertaken in relation to Junior Skate Facilities in Victor Harbor. It outlines a summary of the consultation activities that were undertaken and the feedback gathered during the engagement period.

Background

The City of Victor Harbor aspires to be an inclusive and engaging City for young people to thrive in. Public facilities that specifically cater to young people, like scooter and skate tracks, can help to encourage socialisation, exercise and wellbeing.

While there are already scooter, skate and bike amenities in the Council area, the intent of a potential new junior skate facility would be to complement existing facilities and provide a safe, challenging and fun place for younger riders to enjoy in Victor Harbor.

Feedback and suggestions from the community were sought as they will help Council gauge interest in a junior skate facility and initiate planning for a potential park or track that can provide genuine benefit to youth in the community. Council was particularly interested in feedback relating to the best location for the park or track, possible design ideas, who the facility should cater for, and desired amenities for the park.

Consultation methodology

The community consultation period for Junior Skate Facilities ran from 9am on 30 March until 5pm on 23 April 2021.

The City of Victor Harbor collected the views of the community through a number of different methods including:

- **Online survey** – available on Your Say website
- **Online pin-dropping map tool** – available on Your Say website
- **Hard copy survey** – available from Civic Centre
- **Children’s feedback sheet** – provided to Victor Harbor R-7 School and available in Victor Harbor Library
- **School drop-in session** – Victor Harbor R-7 School, 9-11am on 9 April

The opportunity for residents and ratepayers to have a say about the strategic directions for the Community Plan was promoted in the following ways:

- **Facebook post** – 30 March - 726 people reached, 43 engagements
- **Facebook post** – 13 April – 1,799 people reached, 207 engagements
- **Public notice** – The Times newspaper – 1 April edition

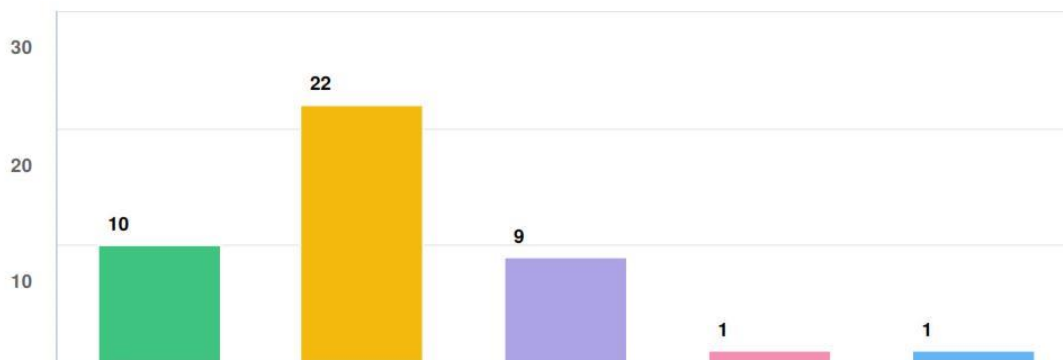

- **Posters** – displayed in Civic Centre foyer for duration of consultation
- **Council website** – article published 30 March – 19 page views, 2 minutes average time on webpage
- **Your Say website** – published on home page 30 March – 170 page views, 15 document downloads
- **Email newsletter to Your Say subscribers** – sent 30 March – 47.7% open rate, 8.8% click rate
- **Victor Viewpoint article** – sent 1 April – 50.77% open rate, 10 clicks on article

Community feedback

Survey Responses

There were 46 surveys completed and submitted. The following provides a detailed overview of the responses.

Q. What best describes you?

Question options

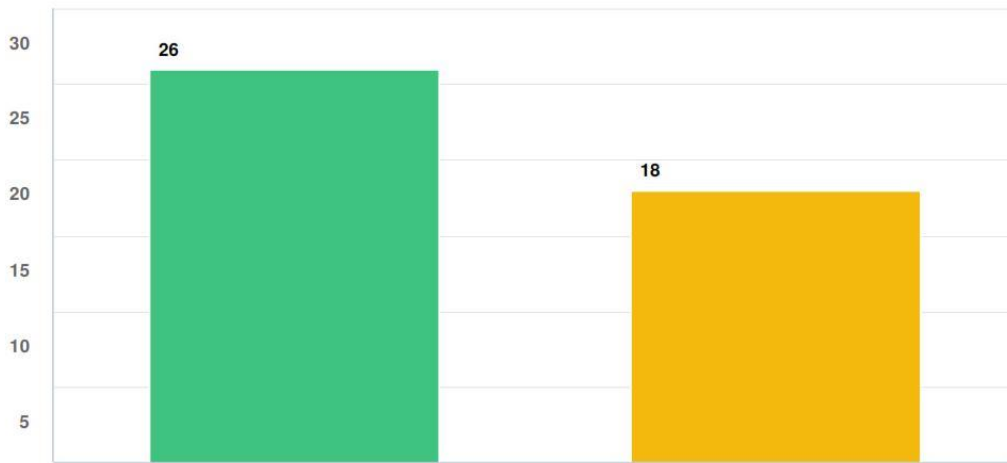

- Encounter Bay resident
- Victor Harbor resident
- Resident within the City of Victor Harbor area
- Non-resident ratepayer
- Other (please specify)

Optional question (43 response(s), 3 skipped)

Question type: Checkbox Question

Responses to 'Other' included: *Middleton*

Q. What is your age?

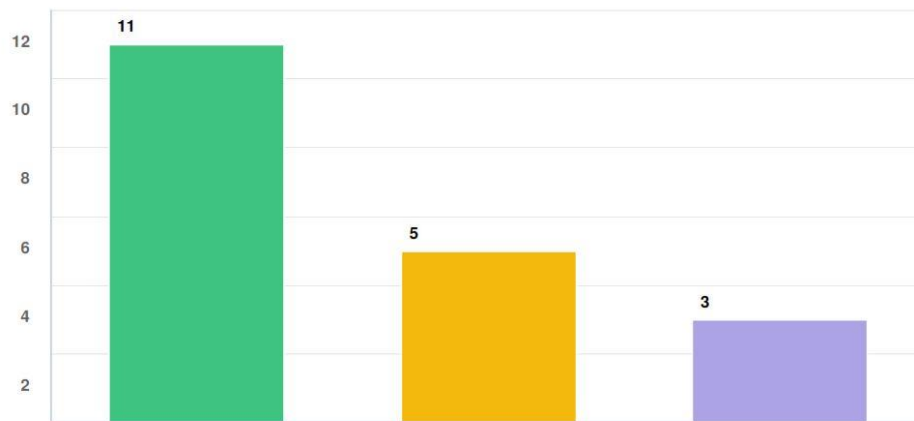

Question options

- Under 18
- 25+

Optional question (44 response(s), 2 skipped)

Question type: Checkbox Question

Q. Are you a parent or carer of someone who participates in scooter riding, skateboarding and/or bike riding?

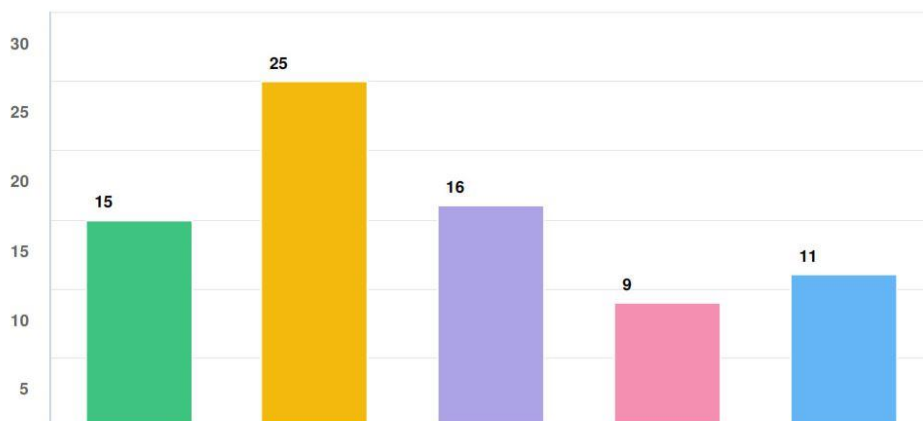

Question options

- Yes
- No
- Yes and I also like to ride, skate or scoot

Optional question (19 response(s), 27 skipped)

Question type: Checkbox Question

Q. What activities do you and/or your children participate in the most?

Question options

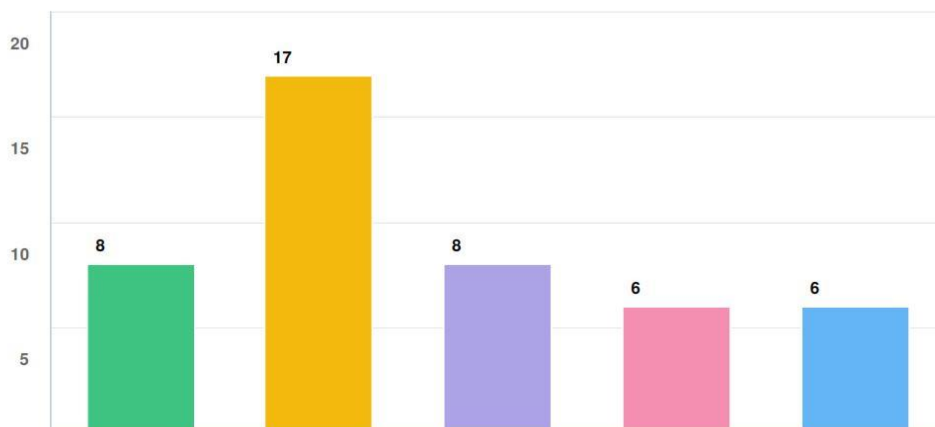

- Skateboarding
- Scooter riding
- BMX racing or riding
- Mountain biking
- Other (please specify)

Optional question (44 response(s), 2 skipped)

Question type: Checkbox Question

Responses to 'Other' included: *Bicycle riding; walking; Bicycle riding; Rollerblading; Basketball and long walks, although our daughter enjoys skateboarding in our backyard; Roller skating; Roller blading; Riding a bike; Just riding/Roller skating; None; Motorbike riding;*

Q. How often do you undertake these activities?

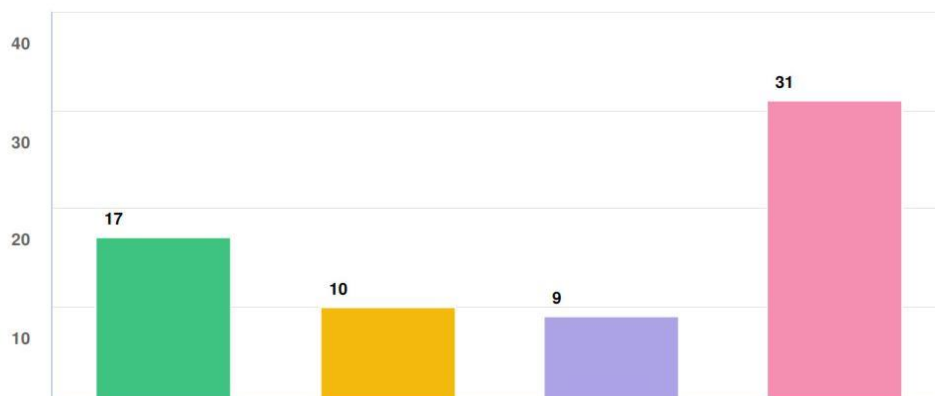

Question options

- Daily
- 2-3 times per week
- Once per week
- 1-3 times per month
- Less than once per month

Optional question (45 response(s), 1 skipped)

Question type: Checkbox Question

Q. Where do you undertake these activities mostly?

Question options

- Victor Harbor BMX Track (Victor Harbor Oval)
- Victor Harbor Skate Park (Foreshore)
- Old Skate Park (Victor Harbor Oval)
- Other (please specify)

Optional question (45 response(s), 1 skipped)

Question type: Checkbox Question

Responses to 'Other' included: Beachside; Roads, streets and parks, footpaths, walking trails as the skate park isn't great for younger kids; beach; Willunga skate park or mount compass; Goolwa, strathalbyn, seaford, west beach and mt compass skate parks; mostly at home as there is no facilities for junior riders. The new skate park is for more advanced riders and the old skate park at the oval is in poor condition; Footpaths; Goolwa; local roads; Encounter bike way; Gardening; goolwa skate park; Encounter Bay esplanade and Kent Reserve; My street; Coles carpark and on footpaths; Kent Reserve; Home; Kent Reserve, or my street; Somewhere?; Esplanade; Kent Reserve My house The bridges; My back yard/front yard; Backyard; Hayborough; Around my house Coles carpark; Flat areas; None - We sometimes walk by the beach; Home; Kent Reserve; Roads; Safe Point of view for small children (Old skate Park Victor Harbor Oval);

Q. What do you think would encourage you to use future skate, scooter or bike facilities?

Not for me but excellent for the youth of Victor Harbor

Depending on where they are, better connecting pathways that avoid roads. Improved facilities for younger kids.

Nothing

If they were more designed for younger kids

advanced junior skate park and pump track

A great place to take beginner and intermediate riders.

Facilities for younger children which is away from the current skate park. The older kids can be daunting for the younger children who want to participate

improved skate parks and pump track

A skate/bike park more suited to younger children up to the age of 12 or so. Smaller jumps, ramps suitable for younger children. Facilities for parents to sit under cover or on a grassed area.

Innovative facilities offering rides to a range of riders, from beginners to advanced

The location is the key to its success...it must be located next to the existing playground so. A parent(s) can watch the little ones as they grow up and progress from the playground to the junior skate park.

More flat smooth paths free of leaf litter/ rocks. Bad for rollerblading!!

nothing at 80 years old

built for all ages, seating facilities, toilets, bbq

A larger park area with different rinks/tracks to enjoy

Longer track BMX track, Bigger track, Little kids track

A pump track, A bigger track, A track for little kids like me, Flat surface

Large flat areas and smaller ramps and low grinds. (or both harder and an easier sides of park).

Flat spaces for beginners or learners Longer tracks A pump track in vtt

Bigger track Pump track Flat surfaces

Bigger track Flat surfaces Pump tracks

Pump track A little kids track A longer/bigger track

Long paths with occasional jumps/bumps Path with twists

Pump track

Bigger ramps Longer tracks More jumps Pump tracks Mini tracks for little kids

A pump track at Victor Skate Park

Footpaths Pump tracks

A flat space with no bumps or cracks, no hills Smaller jumps for small people

Flat ground made with concrete Little jumps

Bigger ramps

Bigger ramps Longer tracks Colourful details Scooters that are free, but you have to have an app like at West beach Maybea playground next to the Goolwa skate park

Bigger ramps and obstacles

Footpaths

Pump tracks More jumps and ramps to get more speed

Bigger stuff Pump tracks

More stuff Bigger ramps Pump tracks

More stuff Bigger ramps

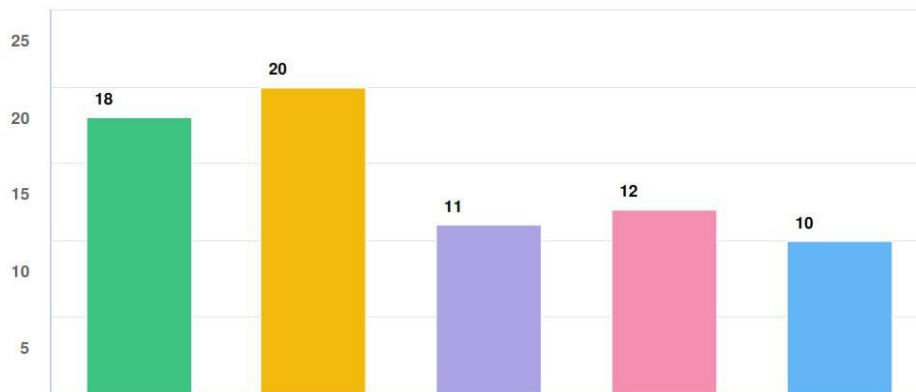

Flat space Ramps

TO build a better one with bigger ramps and pump tracks

The current skate parks (Foreshore and Oval) are severely outdated and are becoming quite dangerous with gaps in the concrete forming creating ridges that can easily cause injury. The oval facilities are particularly inadequate and are rarely used by any rate-payers as a result. An upgrade to these facilities along with a new park is clearly required. Please do not build one of those modular pump tracks. They are a bad investment and not used much in any of the places I have seen them installed. What should be built is a skate 'bowl' similar to what has been constructed at Strathalbyn and Murray Bridge. The location at Hayborough would be ideal for this.

The proposed Junior Skate Park is definitely the missing piece to the Children's recreation area of Victor Harbor for those aged 4-10 years as they progress from playground eventually to the Youth Skate Park. It will allow parents to become involved with the education and training of their small children in the safe use of the scooter and at the same time have fun together. The JSPark will also alleviate the perceived "intimidation" factor by the big kids. It will also provide an educational training facility for school use for R - 7 children in road safety etc. The key to its success will be in its location. I propose it be located close to the current playground (eastern side) thus allowing supervision of both the Junior Skate area and the "senior" playground surrounded by tables and chairs

Q. Where do you think would be the best place for installing future skate, scooter and bike riding facilities?

Question options

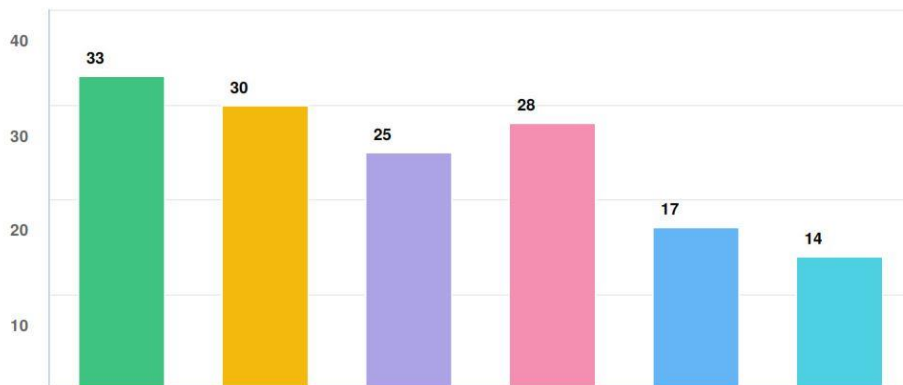

- Kent Reserve (Northern End)
- Victor Harbor BMX Track (upgrade existing skate space/pump track)
- Victor Harbor Skate Park (Foreshore)
- Hayborough Reserve (Stan Farquar Reserve)
- Other (please specify)

Optional question (45 response(s), 1 skipped)

Question type: Checkbox Question

Responses to 'Other' included: *Location nearby the Primary School, near beach North end of Bridge terrace reserve; All of above sound good; no where; The yet to be built recreation facilities on Ring Route Road; And the old skate park at the Victor Harbor Oval; NO! I like it, no skate park; Put a Skate Park on the Esplanade; I think there should be a skate park because if you live there you have to drive for a bit - around Day Road/Armstrong Road; Don't know; On foreshore next to playground - refer to attachment*

Q. What features would you like to see in future upgrades of scooter, skate and bike facilities?

Question options

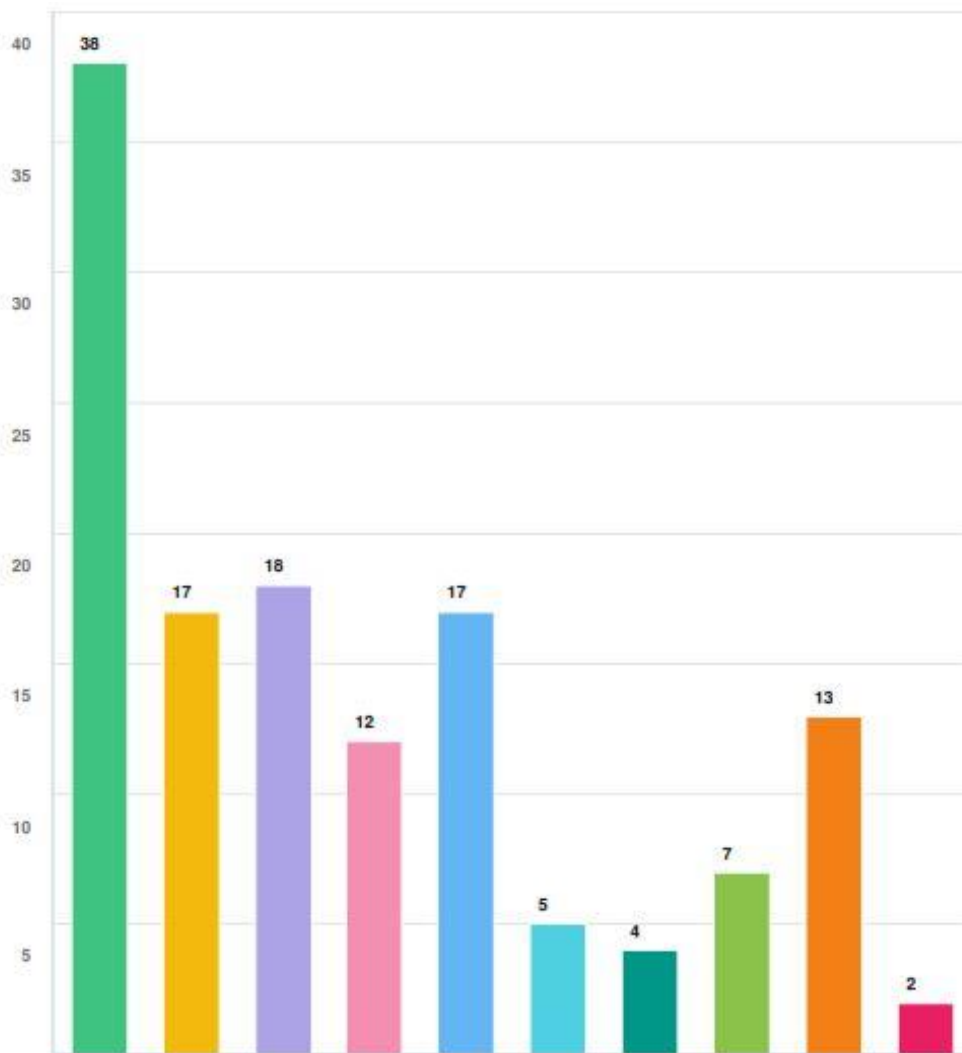

- A pump track for all ages
- Ramps suitable for younger riders
- Connected paths
- Easy beginner jumps
- Intermediate or advanced jumps
- Other (please specify)

Optional question (44 response(s), 2 skipped)

Question type: Checkbox Question

Responses to 'Other' included: *Shade and seating; smaller bowl, hips, rails, etc; definitely some beginner and intermediate level areas. Something similar to Goolwa or Strathalbyn parks; Hard jumps; Flat ground space; Flat spaces to ride on; Wide long paths; Flat ground; Colourful detail, with mega ramps; Half pipe; Half pipe; Don't know; A skaterpark or bow. Any of the above would be an unwise investment; Ram and Easy beginner jumps on the new Junior Skate Pathway;*

Q. What considerations do you think are most important when considering locations for future facilities?

Question options

- Toilets
- Parking
- Amenities – seating, tables, etc.
- Natural features – lawn areas, trees, etc.
- Shade
- Connectivity to other facilities – shops, schools, etc.
- Accessible by walking, cycling or scooter/skating
- Passive surveillance
- Lighting
- Other (please specify)

Optional question (46 response(s), 0 skipped)

Question type: Checkbox Question

Responses to 'Other' included: *Amenities, Lighting and Natural Features also selected; waste of money*

'Places' Pin-Dropping Map Tool

There was one contributor to the pin-dropping map tool on the Your Say website.

Q. Where would you like a junior skate park or track to go?

The old skate park is out dated without nothing to skate under 5ft. There needs to be something to skate for beginners around 3-4 foot. A bowl would be fantastic similar to Murray bridge. There is a great pump track at Goolwa but no good bowls locally. We drive our 3 boys to Adelaide almost every weekend to skate as Other councils in SA Have built or are building some excellent new parks. Skate park leagues hold competitions in each state around Australia, how good would it be to have this down south! Get on board Victor!

Address: 776 Bridge Terrace, Victor Harbor South Australia 5211, Australia

Children's Feedback Sheet

There were 78 children's feedback sheets completed.

School Drop-In Session

Some of the verbal feedback received during the Victor Harbor R-7 School drop-in session included:

- The Victor Harbor Oval BMX track and skate park was highlighted as being the current site most frequently used by students and that they would like to see upgraded/repaired.
- Suggestions in relation to the type of facilities were that making a large flat area for beginners would be good add smaller ramps to make facilities safer and less daunting.
- Some students were suggesting more and bigger ramps – generally those who were confident riders.
- Many students identified the footpaths around their neighbourhood as being key destinations including the Encounter Bikeway.
- Kent Reserve was also highlighted as a place that many students visit with bikes and scooters and that it was already in good condition.
- Students were interested in the process of why they were providing feedback and why Council was seeking their input.

Students also took time to consider the location and completed a *Potential Locations Map* (26 completed) with further comment around sites, current use and what they would like to see happen.

Some of the quotes provided were:

"I use the Victor Harbor BMX track/skate park"

"Victor Harbor Skate Park I don't use"

"Kent Reserve is good but it is not a skate park"

“I’ve only used the Victor Harbor BMX track and I’d like to see lights and more trees there”

“Making a large flat area for beginners. Smaller ramps would make the park safer for children learning to skate, bike ride or scooter ride. Benches would make parents to watch their children. Lighting and a shaded area would improve the park too.”

“I think the VH BMX track needs to be re-done up and safer for younger skaters, bikers etc. It should also have benches lights table and other things that make the park better.”

“At Hayborough there is lots of room to add and build new things, there is already a track so adding some ramps, some benches would be really good and a great place to go”

Conclusion

In summary, community engagement was a useful process to help gain a better understanding of the needs for junior skate and scooter facilities in the Victor Harbor region. This broad, high level consultation will assist in progressing the improvement of junior skate and scooter facilities and ensure the needs of community are understood and considered as the project progresses to design.

The significant number of community positive responses demonstrates the importance of community input into decision making.

All comments provided as part of the engagement process will be presented to Council for further consideration.

Scooter riding
BMX racing or riding
Mountain biking
- Q9. **How often do you undertake these activities?** Daily
- Q10. **Where do you undertake these activities mostly?** Victor Harbor BMX Track (Victor Harbor Oval)
Victor Harbor Skate Park (Foreshore)
Old Skate Park (Victor Harbor Oval)
Other (please specify)
Roads
- Q11. **What do you think would encourage you to use future skate, scooter or bike facilities?**
TO build a better one with bigger ramps and pump tracks
- Q12. **Where do you think would be the best place for installing future skate, scooter and bike riding facilities (eg. Junior pump track or scooter track) in Victor Harbor?** Kent Reserve (Northern End)
Victor Harbor BMX Track (upgrade existing skate space/pump track)
Victor Harbor Skate Park (Foreshore)
Hayborough Reserve (Stan Farquar Reserve)

Q13. What features would you like to see in future upgrades of scooter, skate and bike facilities?

- A pump track for all ages
 - Ramps suitable for younger riders
 - Connected paths
 - Easy beginner jumps
 - Intermediate or advanced jumps
-

Q14. What considerations do you think are most important when considering locations for future facilities? (Select up to three answers)

- Toilets
 - Parking
 - Amenities – seating, tables, etc.

- Q1. **Your Full Name** [REDACTED]
- Q2. **Your Residential Address** not answered
- Q3. **Your Email Address** [REDACTED]
- Q4. **Add your email address to the Victor Viewpoint mailing list, Council's monthly e-newsletter?** not answered
- Q5. **What best describes you?** Victor Harbor resident
- Q6. **What is your age?** 25+
- Q7. **Are you a parent or carer of someone who participates in scooter riding, skateboarding and/or bike riding?** Yes
- Q8. **What activities do you and/or your children participate in the most?** Skateboarding
- Q9. **How often do you undertake these activities?** Daily
- Q10. **Where do you undertake these activities mostly?** Victor Harbor Skate Park (Foreshore)

Q11. What do you think would encourage you to use future skate, scooter or bike facilities?

The current skate parks (Foreshore and Oval) are severely outdated and are becoming quite dangerous with gaps in the concrete forming creating ridges that can easily cause injury. The oval facilities are particularly inadequate and are rarely used by any rate-payers as a result. An upgrade to these facilities along with a new park is clearly required. Please do not build one of those modular pump tracks. They are a bad investment and not used much in any of the places I have seen them installed. What should be built is a skate 'bowl' similar to what has been constructed at Strathalbyn and Murray Bridge. The location at Hayborough would be ideal for this.

- Q12. **Where do you think would be the best place for installing future skate, scooter and bike riding facilities (eg. Junior pump track or scooter track) in Victor Harbor?** Hayborough Reserve (Stan Farquar Reserve)

- Q13. **What features would you like to see in future upgrades of scooter, skate and bike facilities?** **Other (please specify)**
A skaterpark or bowl. Any of the above would be an unwise investment

Q14. What considerations do you think are most important when considering locations for future facilities? (Select up to three answers)

Toilets

Parking

Other (please specify)

Amenities, Lighting and Natural Features also selected

- Q7. **Are you a parent or carer of someone who participates in scooter riding, skateboarding and/or bike riding?** Yes
- Q8. **What activities do you and/or your children participate in the most?** Scooter riding
- Q9. **How often do you undertake these activities?** 1-3 times per month
- Q10. **Where do you undertake these activities mostly?** Old Skate Park (Victor Harbor Oval)
Other (please specify)
Safe Point of fview for mall children (Old skate Park Victor Harbor Oval)
- Q11. **What do you think would encourage you to use future skate, scooter or bike facilities?**

The proposed Junior Skate Park is definitely the missing piece to the Children's recreation area of Victor Harbor for those aged 4-10 years as they progress from playground eventually to the Youth Skate Park. It will allow parents to become involved with the education and training of their small children in the safe use of the scooter and at the same time have fun together. The JSPark will also alleviate the perceived "intimidation" factor by the big kids. It will also provide an educational training facility for school use for R - 7 children in road safety etc. The key to its success will be in it's location. I propose it be located close to the current playground (eastern side) thus allowing supervision of both the Junior Skate area and the "senior" playground surrounded by tables and chairs
- Q12. **Where do you think would be the best place for installing future skate, scooter and bike riding facilities (eg. Junior pump track or scooter track) in Victor Harbor?** Kent Reserve (Northern End)
Other (please specify)
On foreshore next to playground - refer to attachment

Q13. What features would you like to see in future upgrades of scooter, skate and bike facilities?

Ramps suitable for younger riders

Easy beginner jumps

Other (please specify)

Ram and Easy beginner jumps on the new Junior Skate Pathway

Q14. What considerations do you think are most important when considering locations for future facilities? (Select up to three answers)

Toilets

Amenities – seating, tables, etc.

Key:
 [red box] - I don't use
 [orange box] - I use
 [yellow box] - I kind of use
 [green box] - is not a skate park
 [blue box] - I think would be a good place

HAVE YOUR SAY – PUBLIC CONSULTATION

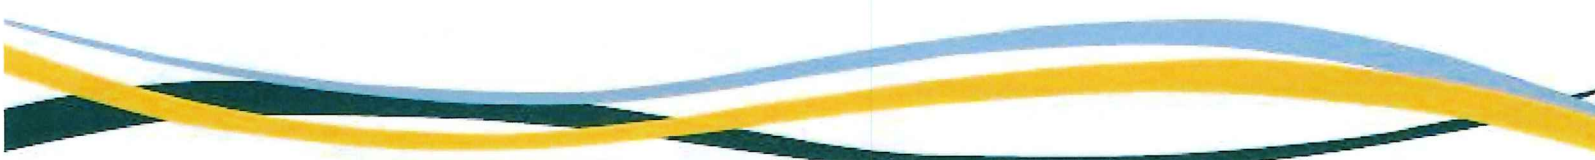

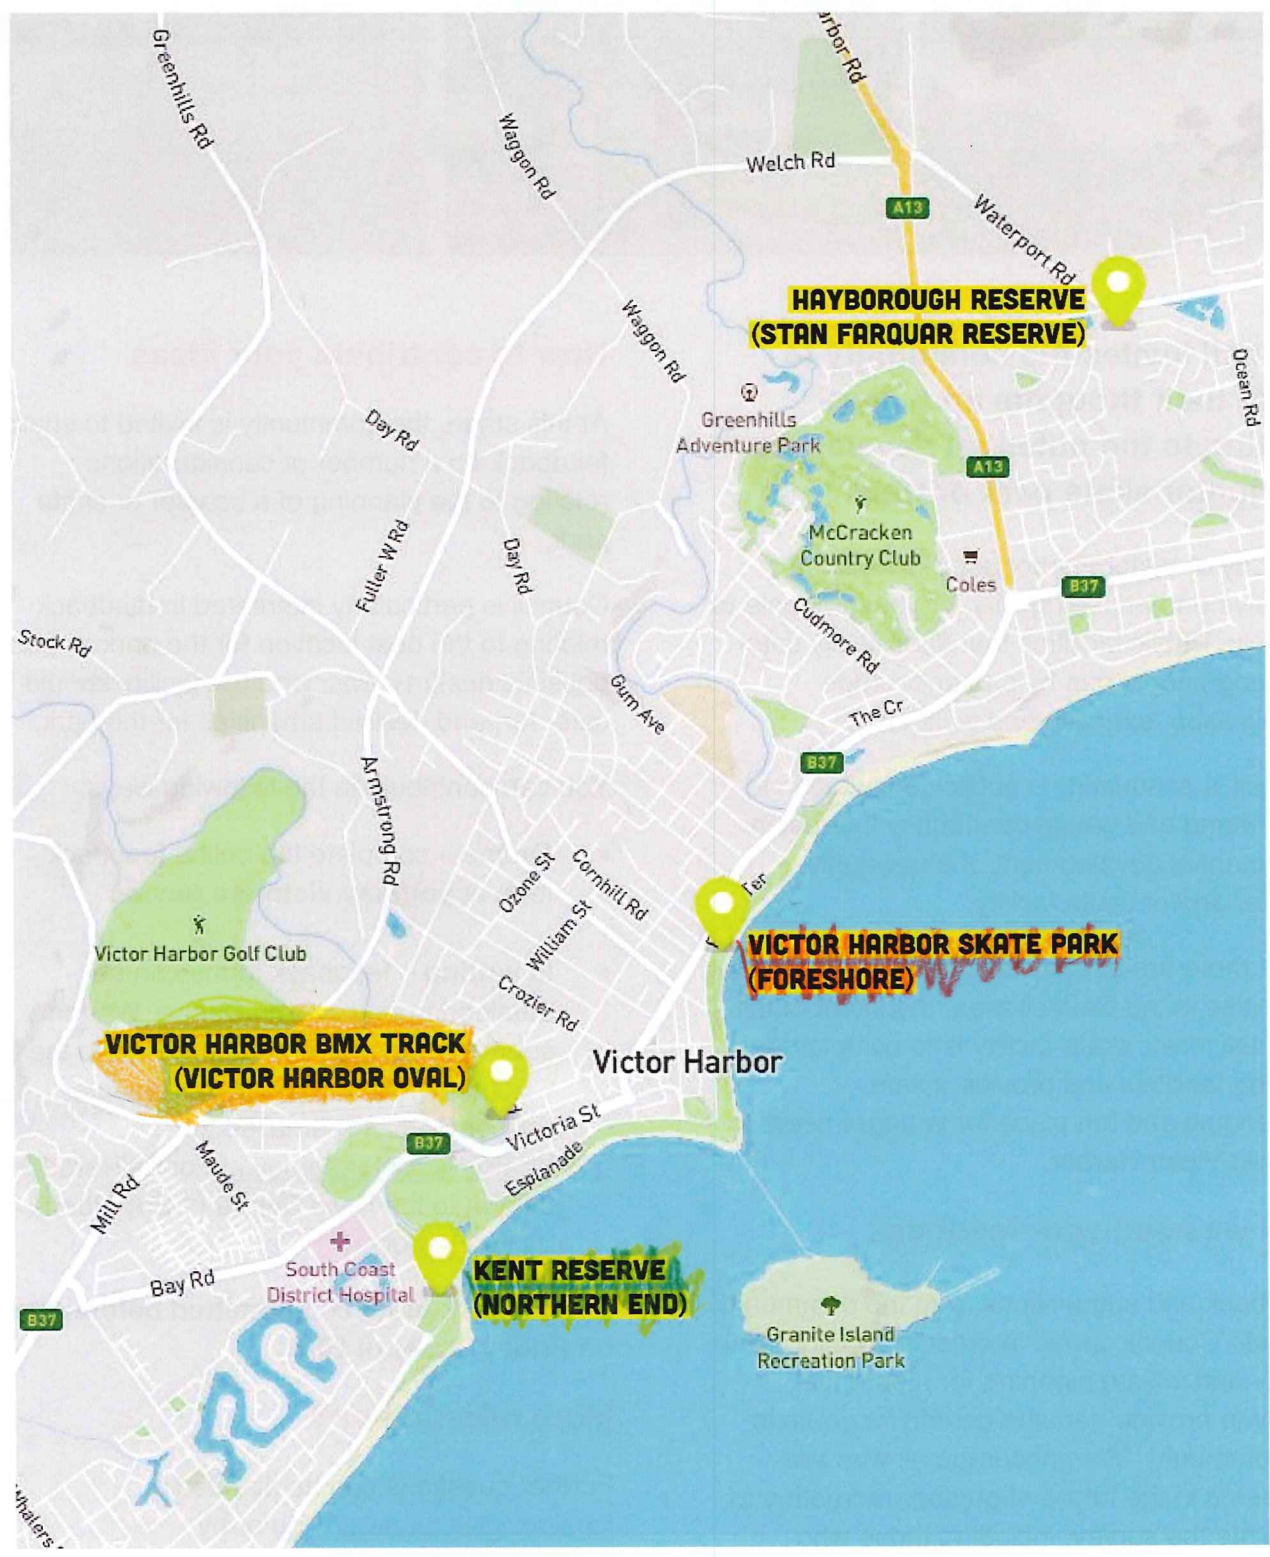

Potential Locations Map

I use the Victor Harbor BMX track / Skate park

Victor Harbor Skate park I don't use

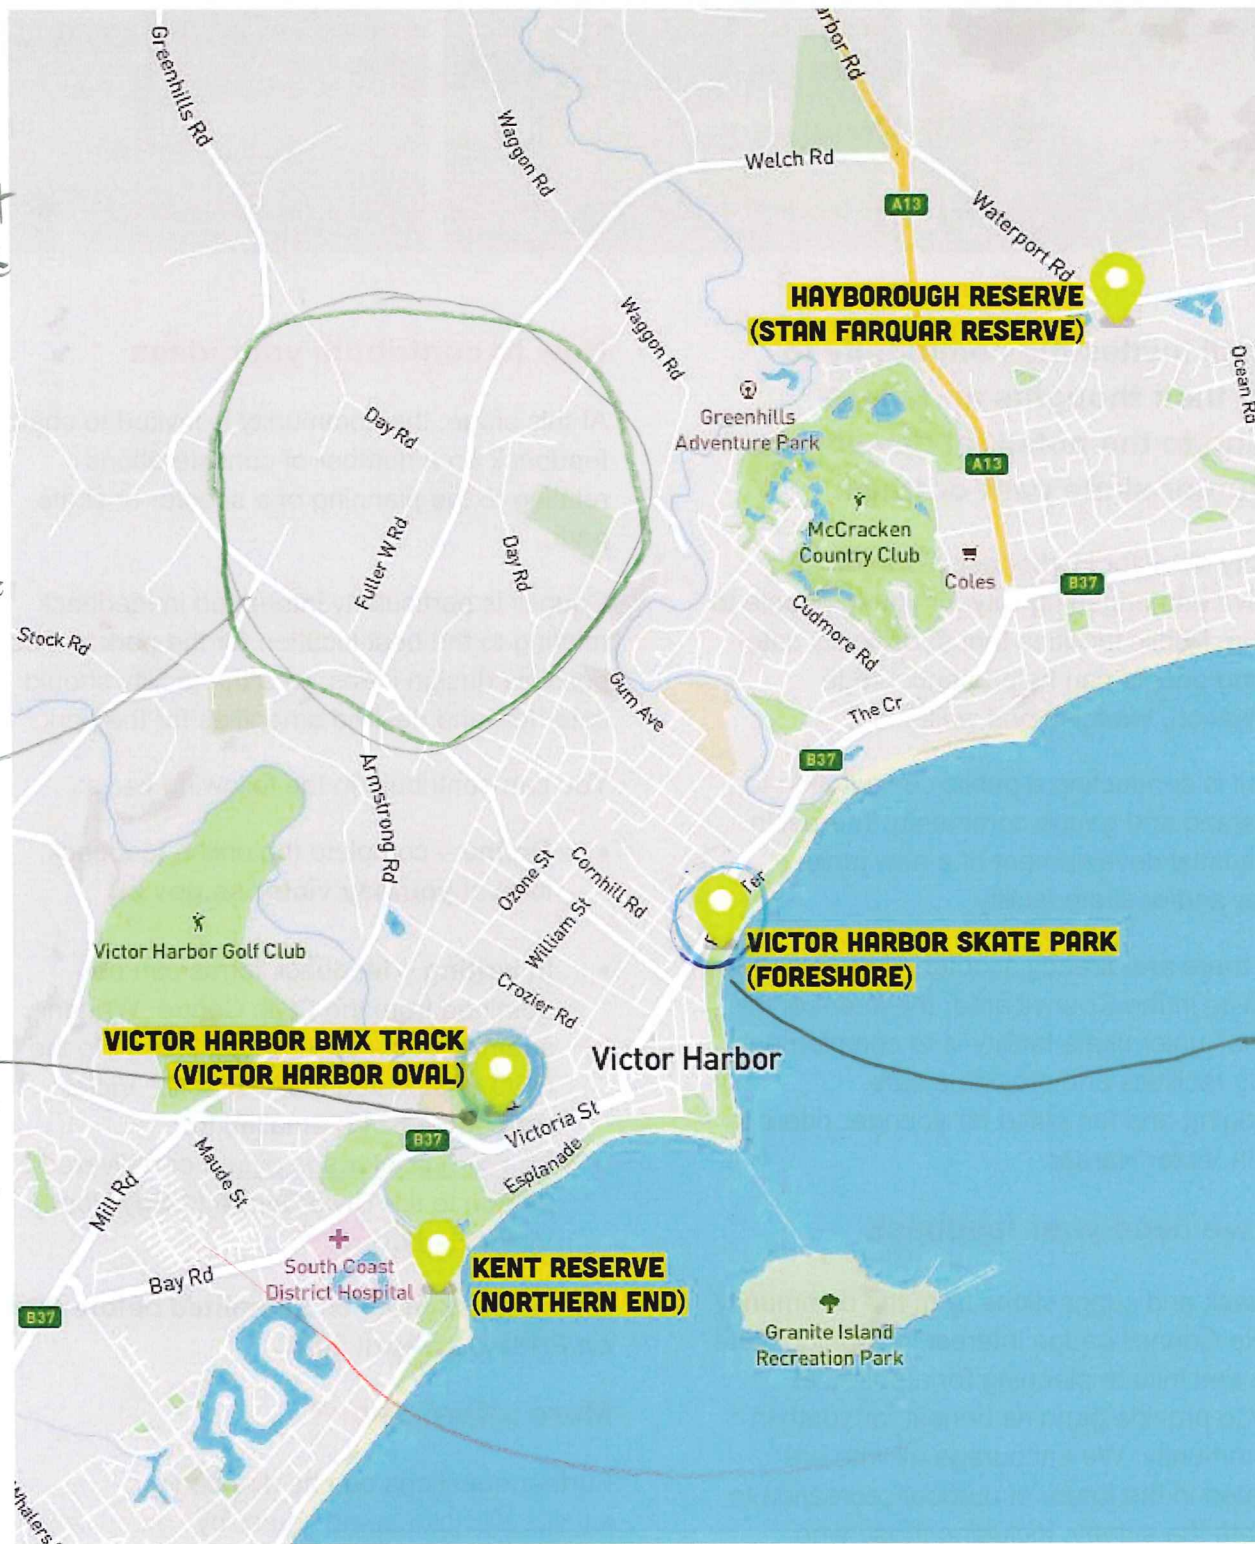

Kent Reserve is good but it is not a skate park

Potential Locations Map

-  what I use.
-  what I want to have ~~a state~~ skate park
-  what I use that isn't a state park

good but there should be more stuff.

I think there should be more things for kids.

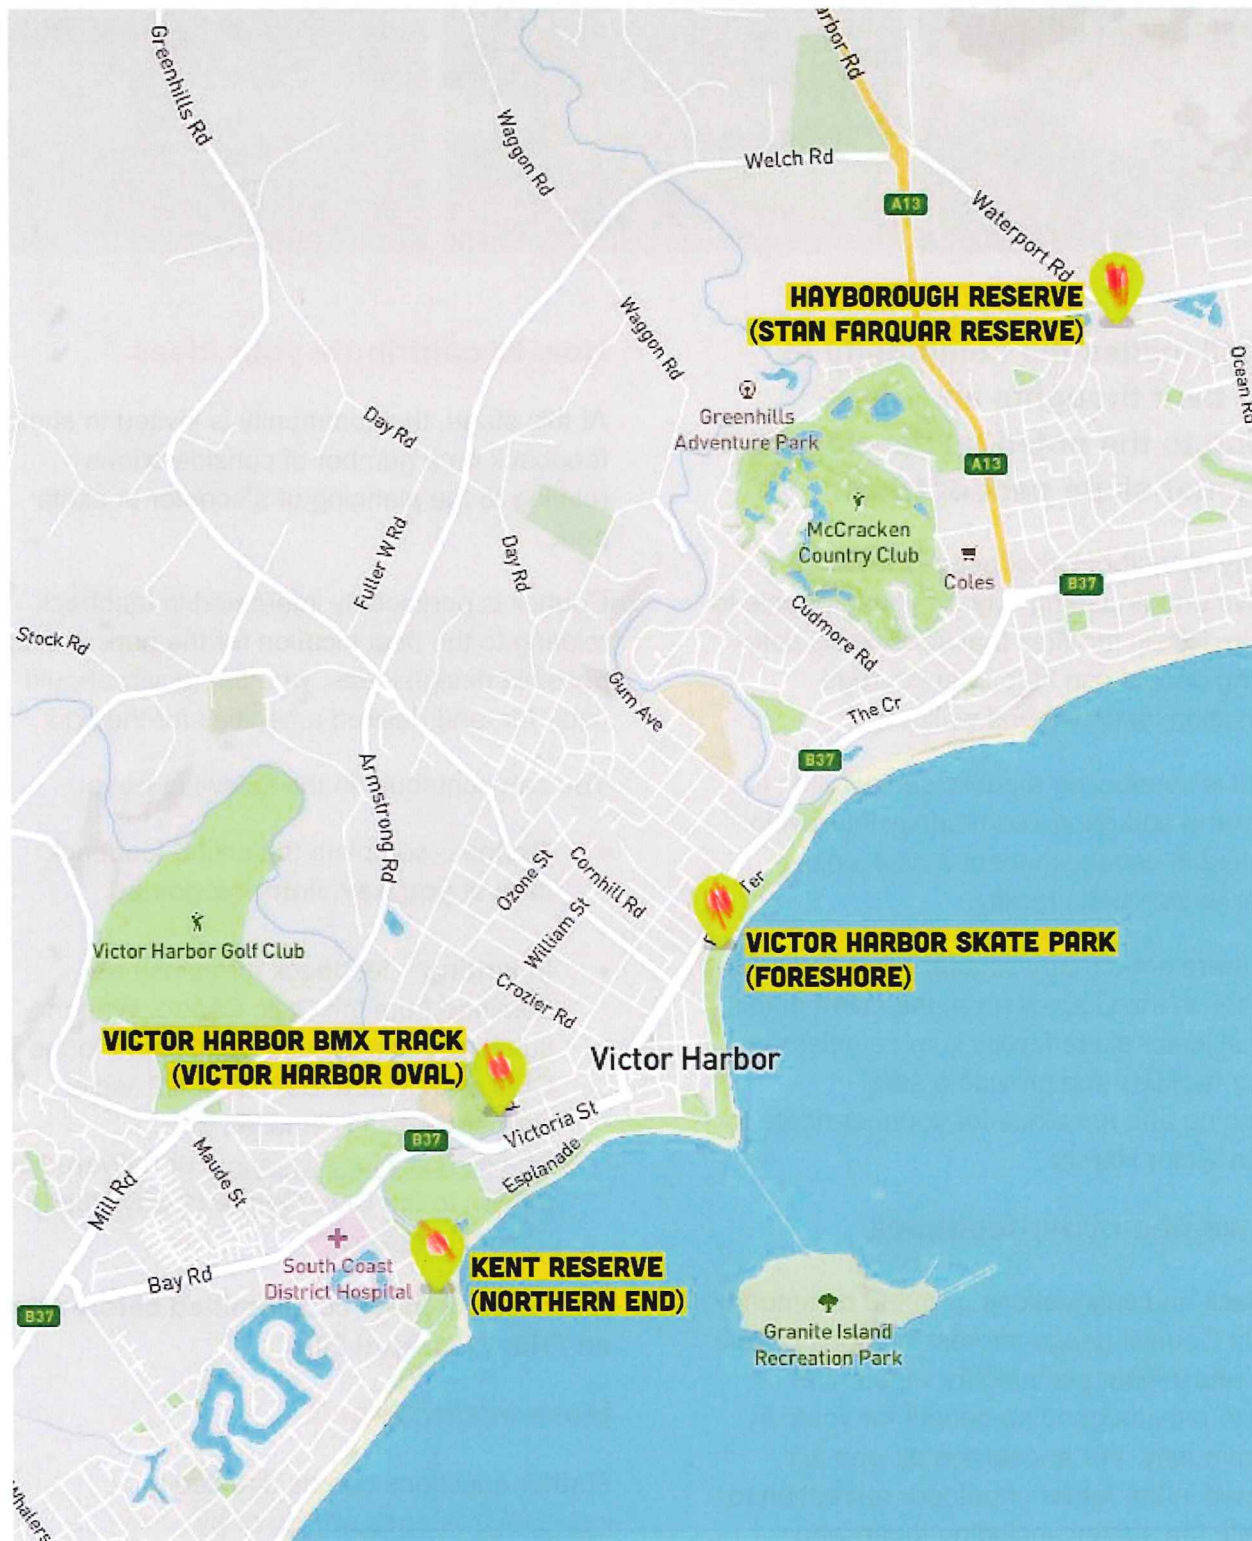

I think there should be a state park because if you live there you have to drive a bit.

HAVE YOUR SAY – PUBLIC CONSULTATION

Potential Locations Map

K Kent reserve to doft

Potential Locations Map

I use this
where I
think is a good
place

what I don't
use as
a skate
park

Pump track there
as well or instead

At the ~~skate~~ bmx track
add some more jumps
or ramps

I think there should be a pump track or a few ramps
at Kent Reserve.

I think we should
put more
equipment

I think we
should put a
skatepark at Kent
Reserve.

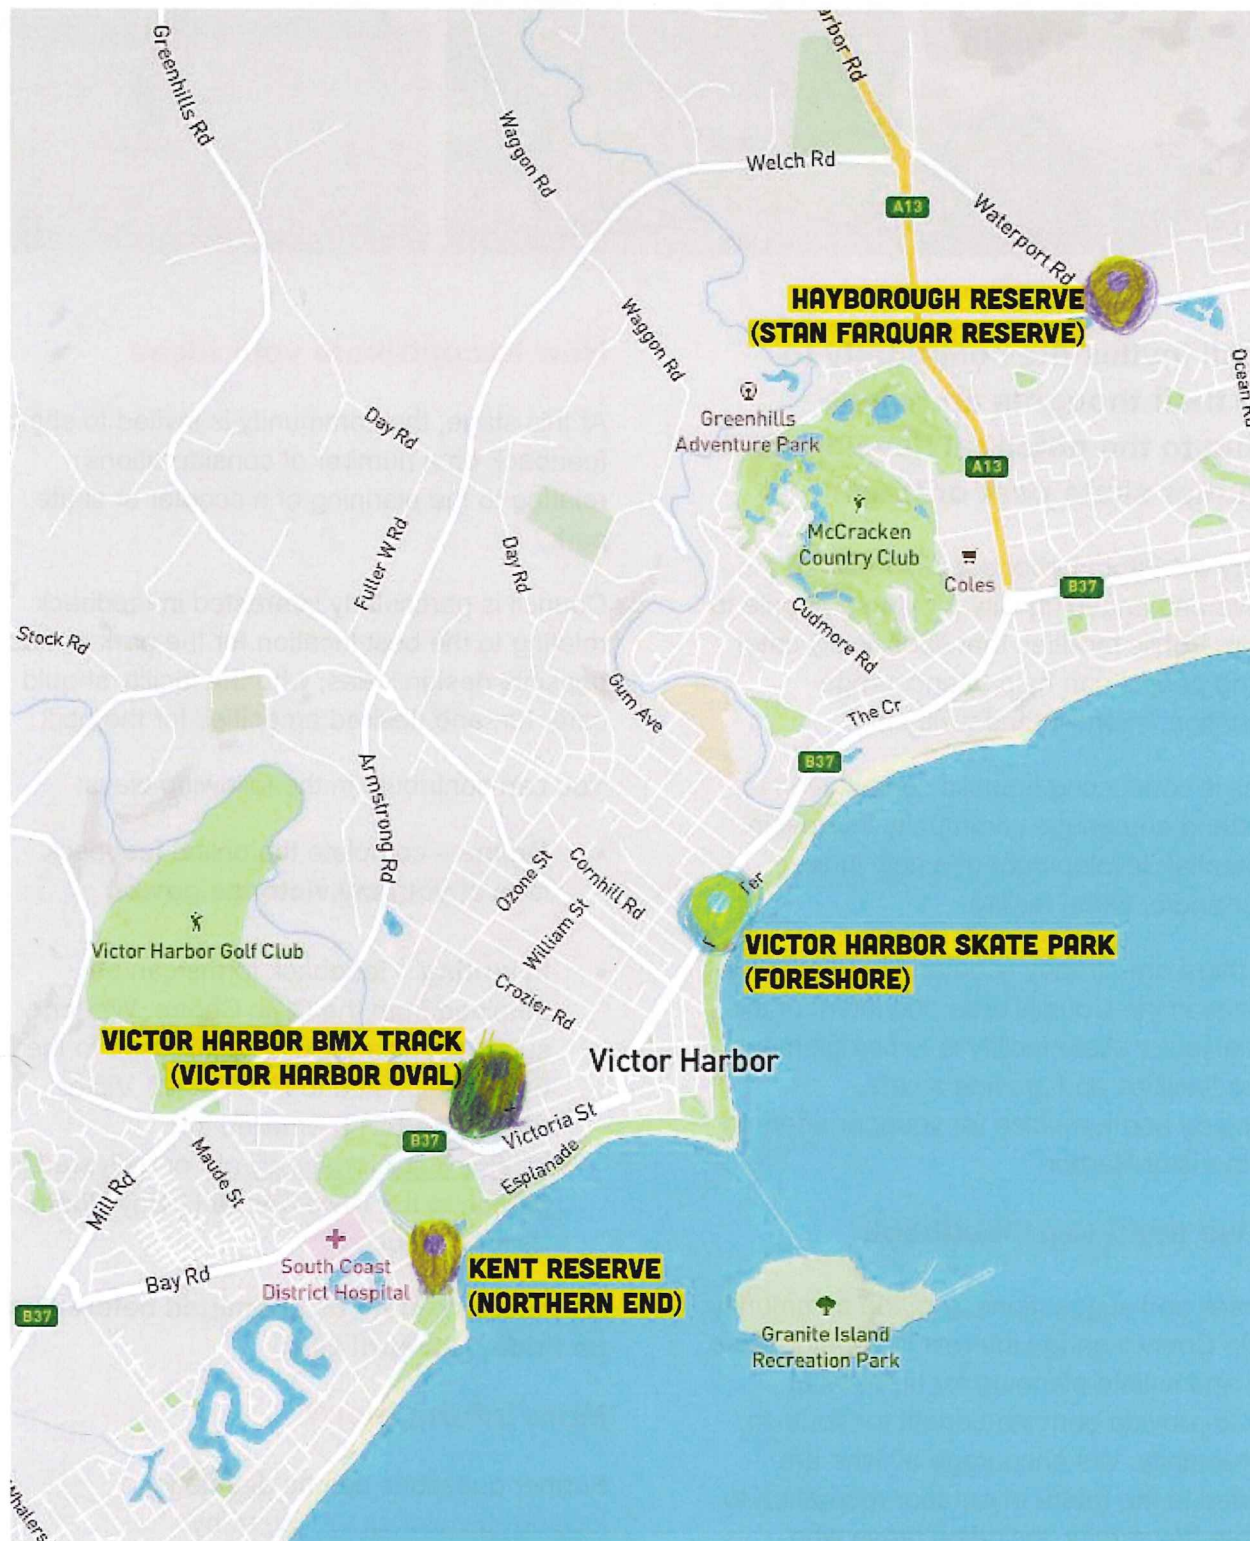

- 15 min. walk to park
- this should be a state park
- I do not think it should be changed
- I go there all the time

HAVE YOUR SAY – PUBLIC CONSULTATION

city of
Victor Harbor

Potential Locations Map

Potential Locations Map

I go to kent reserve to ride my bike and scooter

I don't go to ride or skate on the bmx track

I think the skate park needs more stuff in it

I don't go to haborough much

Key

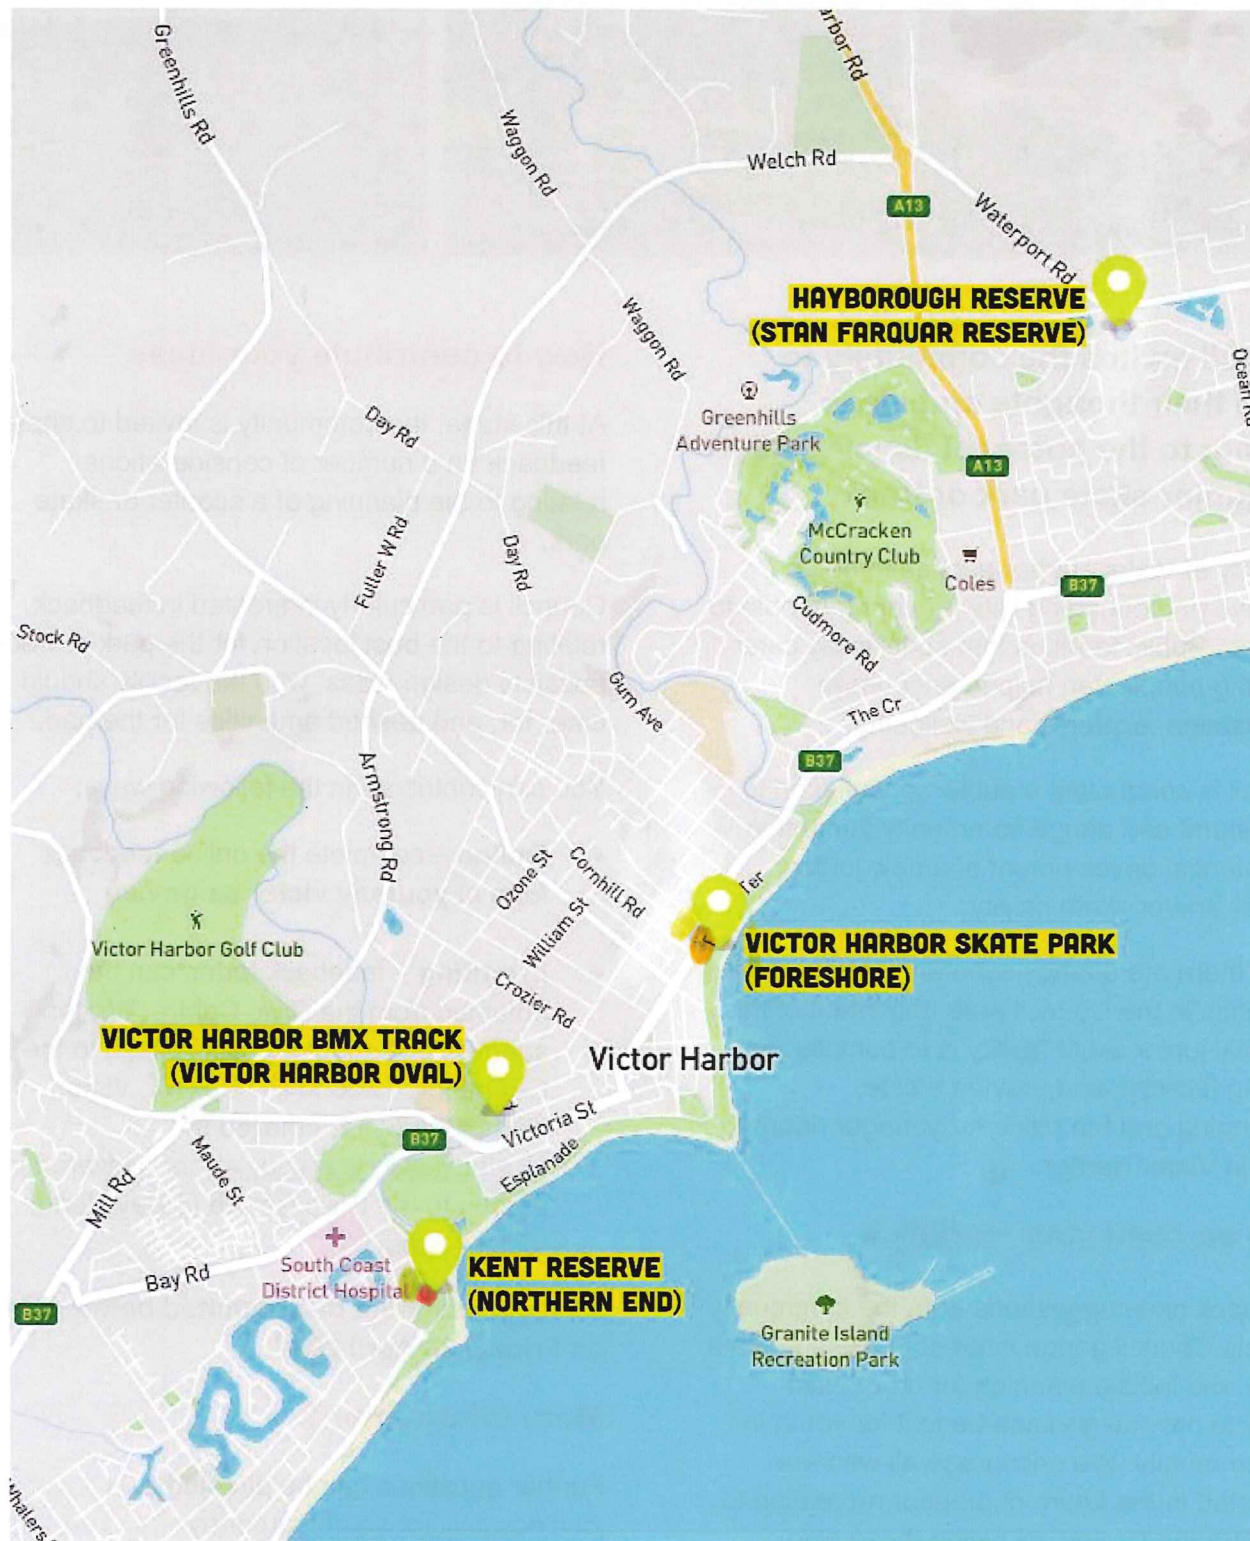

- Areas that I use
- Areas I don't use
- Areas that I don't use all the time
- Areas that need more stuff

Potential Locations Map

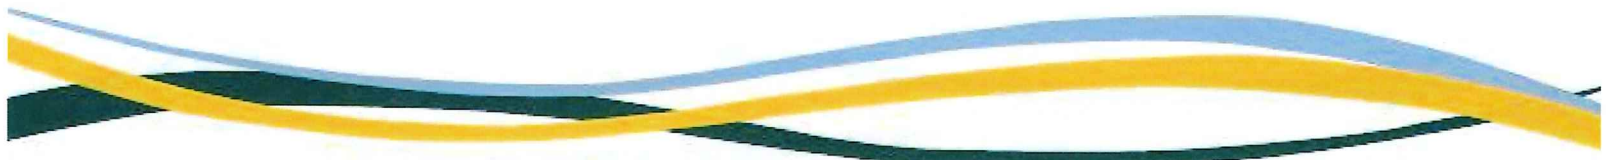

- Keys
- red square: areas that I use.
 - orange square: areas I don't use.
 - yellow square: areas that need more stuff.
 - green square: all ready good.
 - blue square: (unlabeled)

I go to Kent reserve to ride my bike.

I think the skate park on the foreshore should have light so people can go riding at night when it's dark.

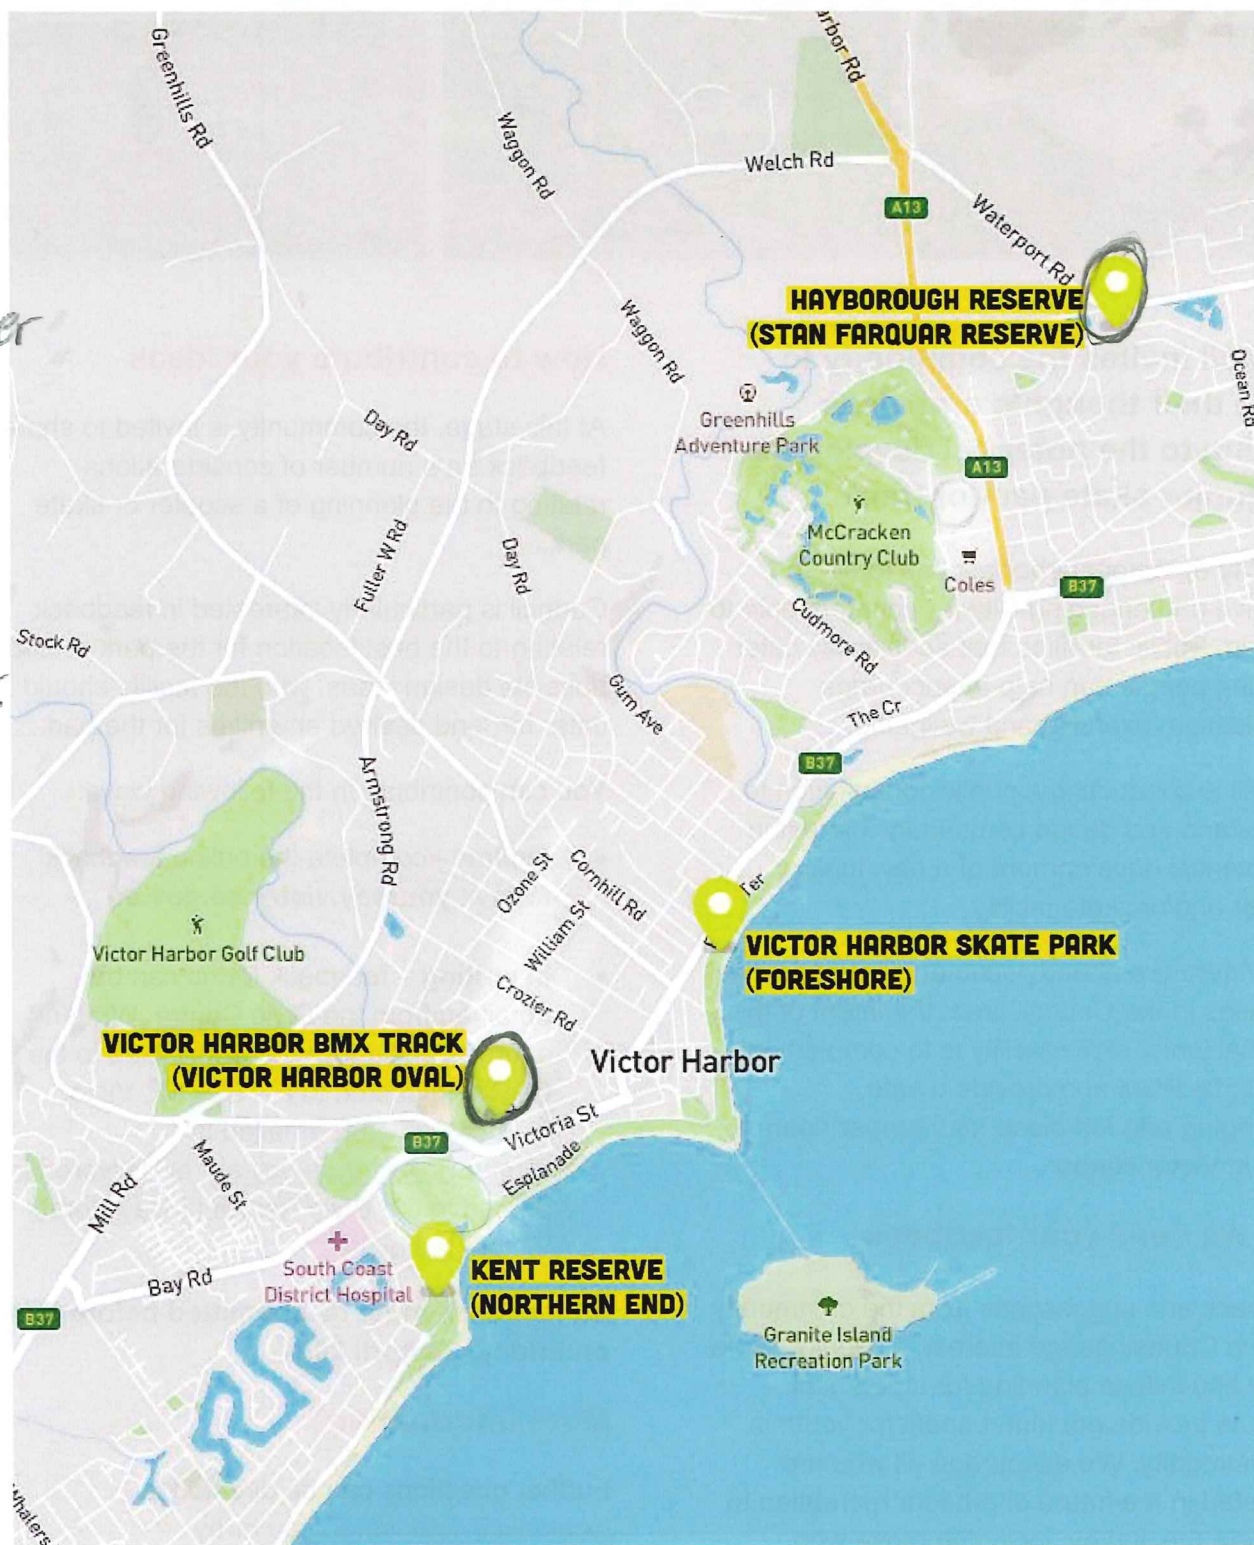

I think at kent reserve there should be a pump track.

Potential Locations Map

I think the VH BMX track needs to be re-done up and safer for younger skaters, bikers ect. It also should have benches, lights, tables and other things that make the park better.

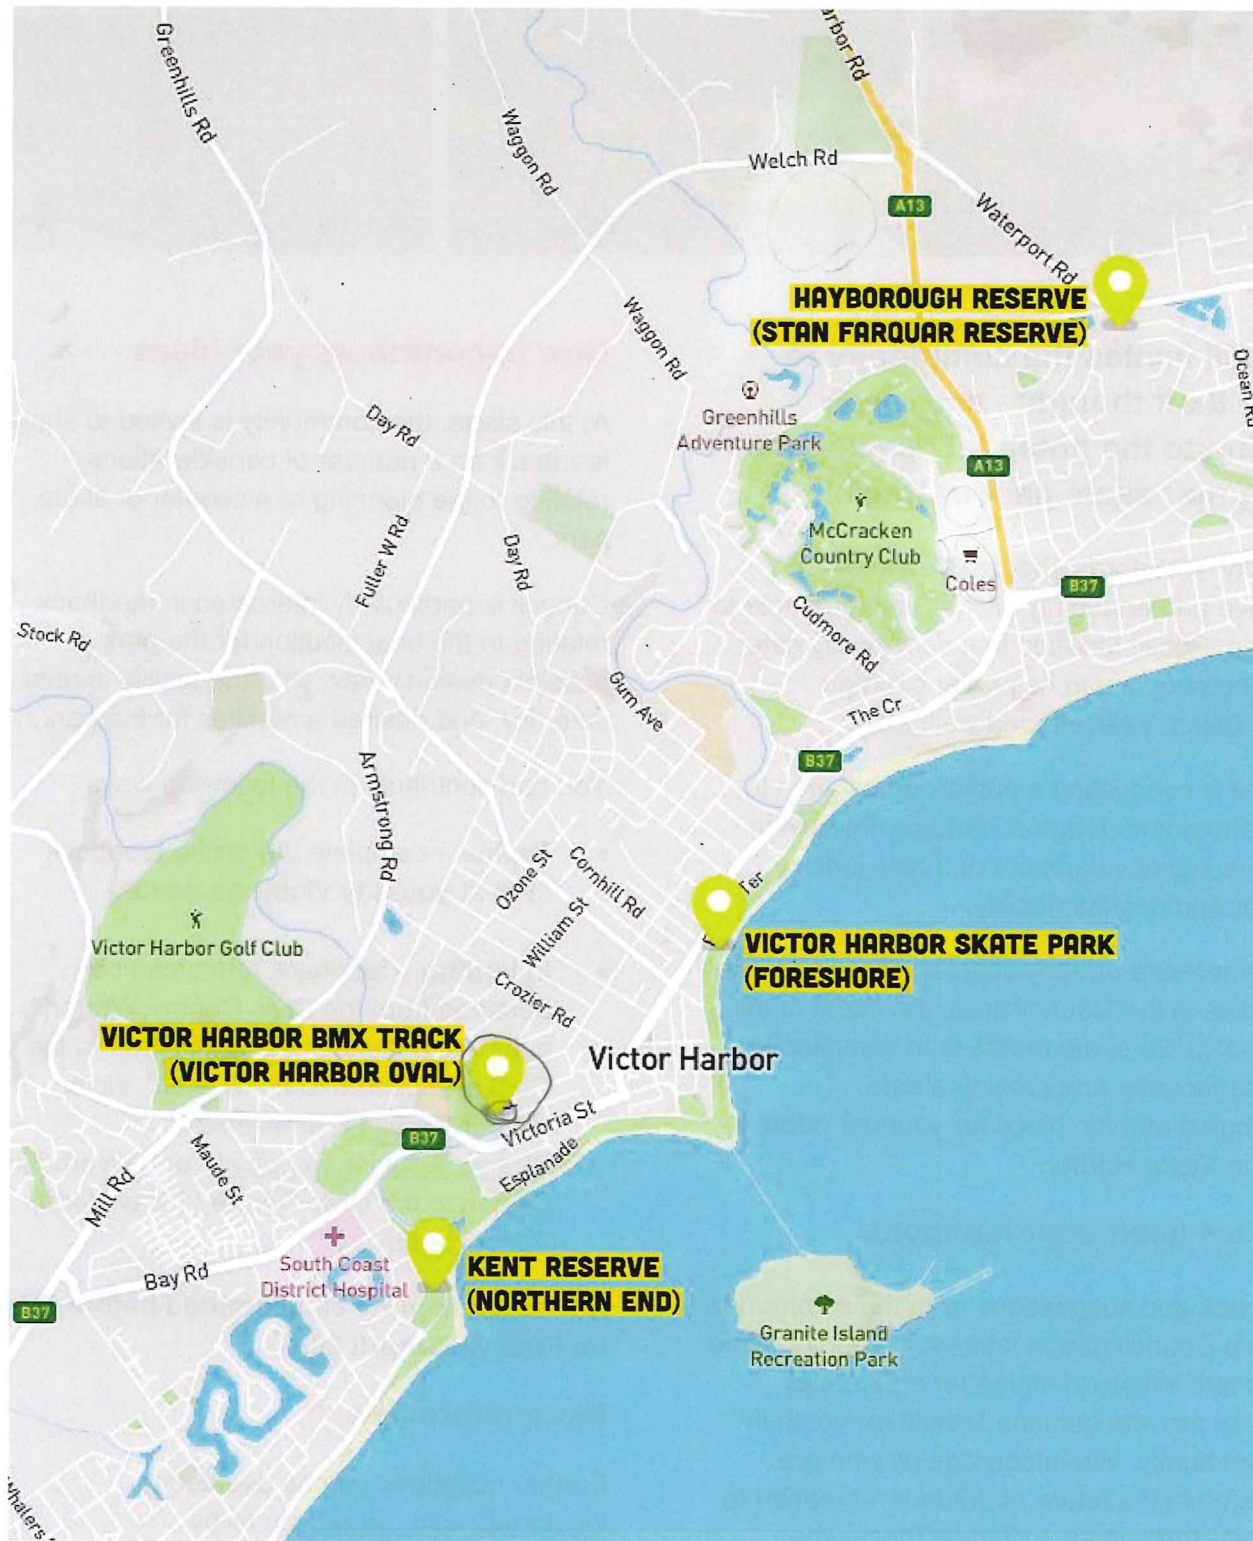

At Hayborough there is lots of room to add and build new things, there is already a track so adding some ramps, some benches would be really good and a great place to go!

Potential Locations Map

making a large flat area for beginners.
smaller ramps would make the park safer for children learning to skate, bike-ride or scooter ride. benches would make parents to watch their children. lighting and a shaded area would improve the park too.

Potential Locations Map

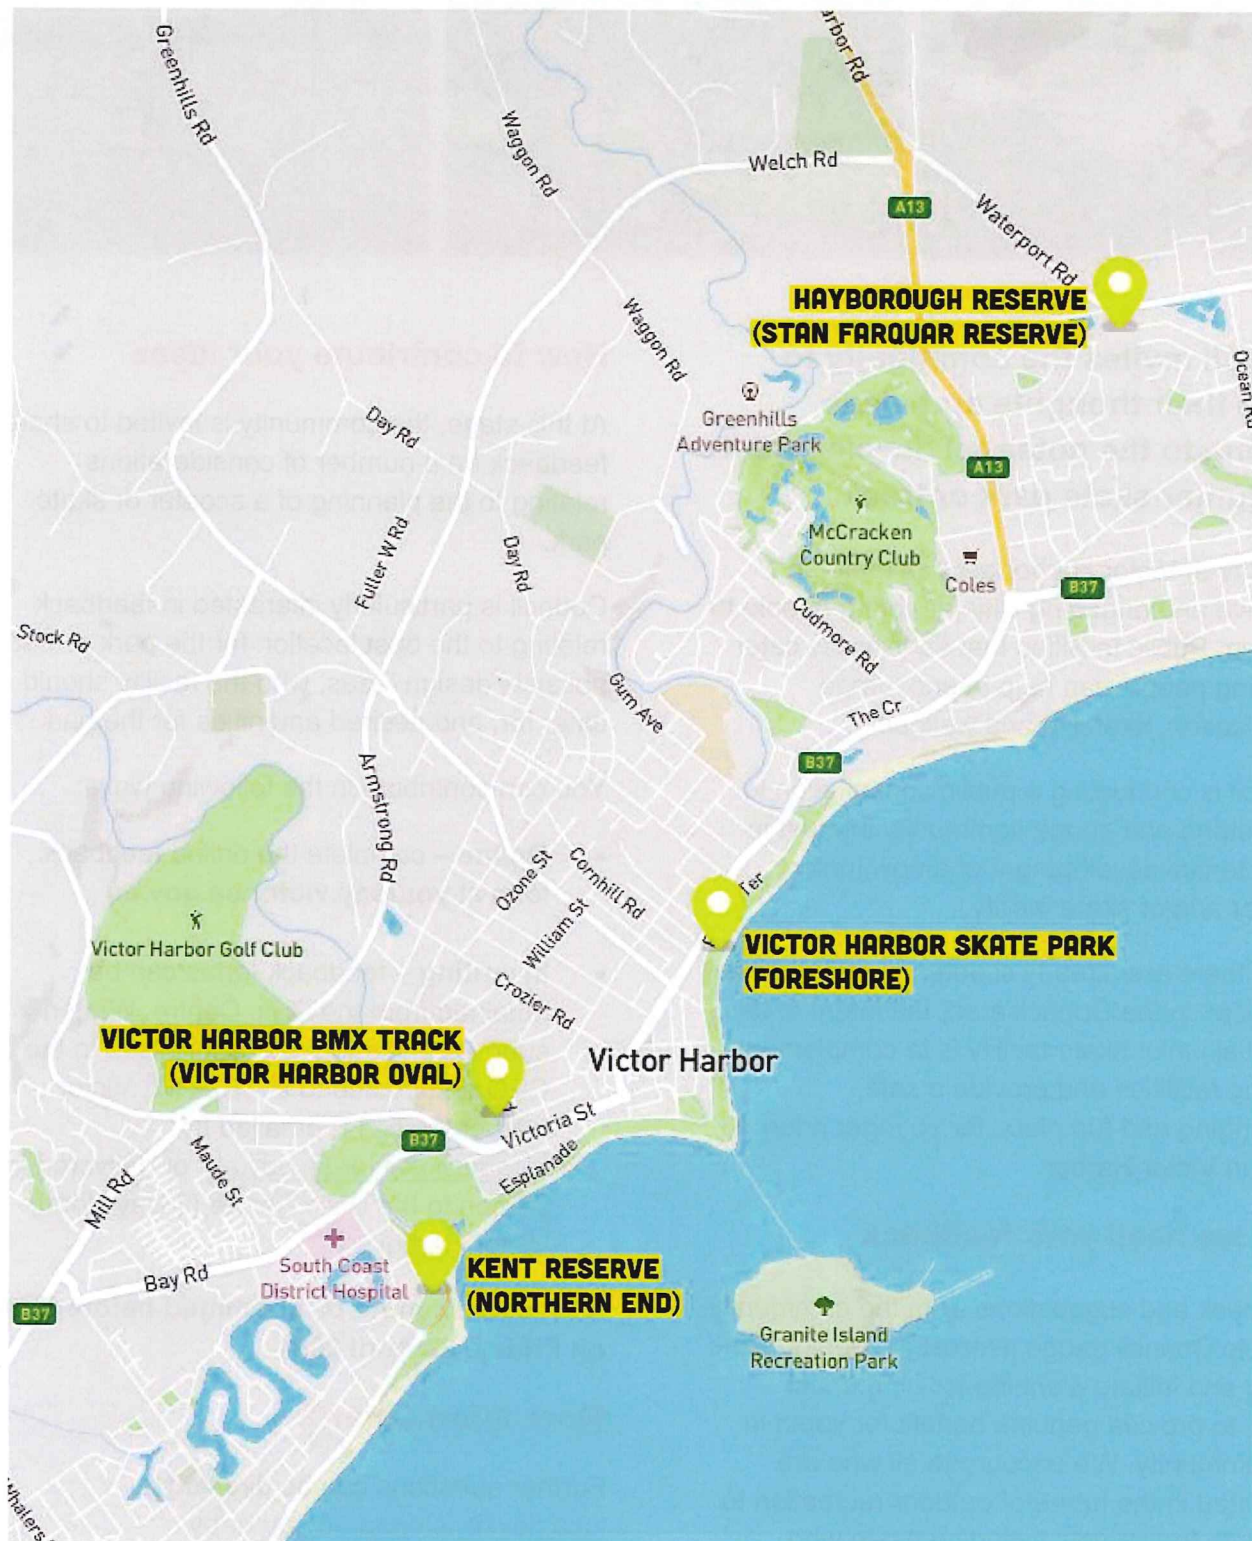

I have no idea
where they are

area that i've used

area that i've used

Potential Locations Map

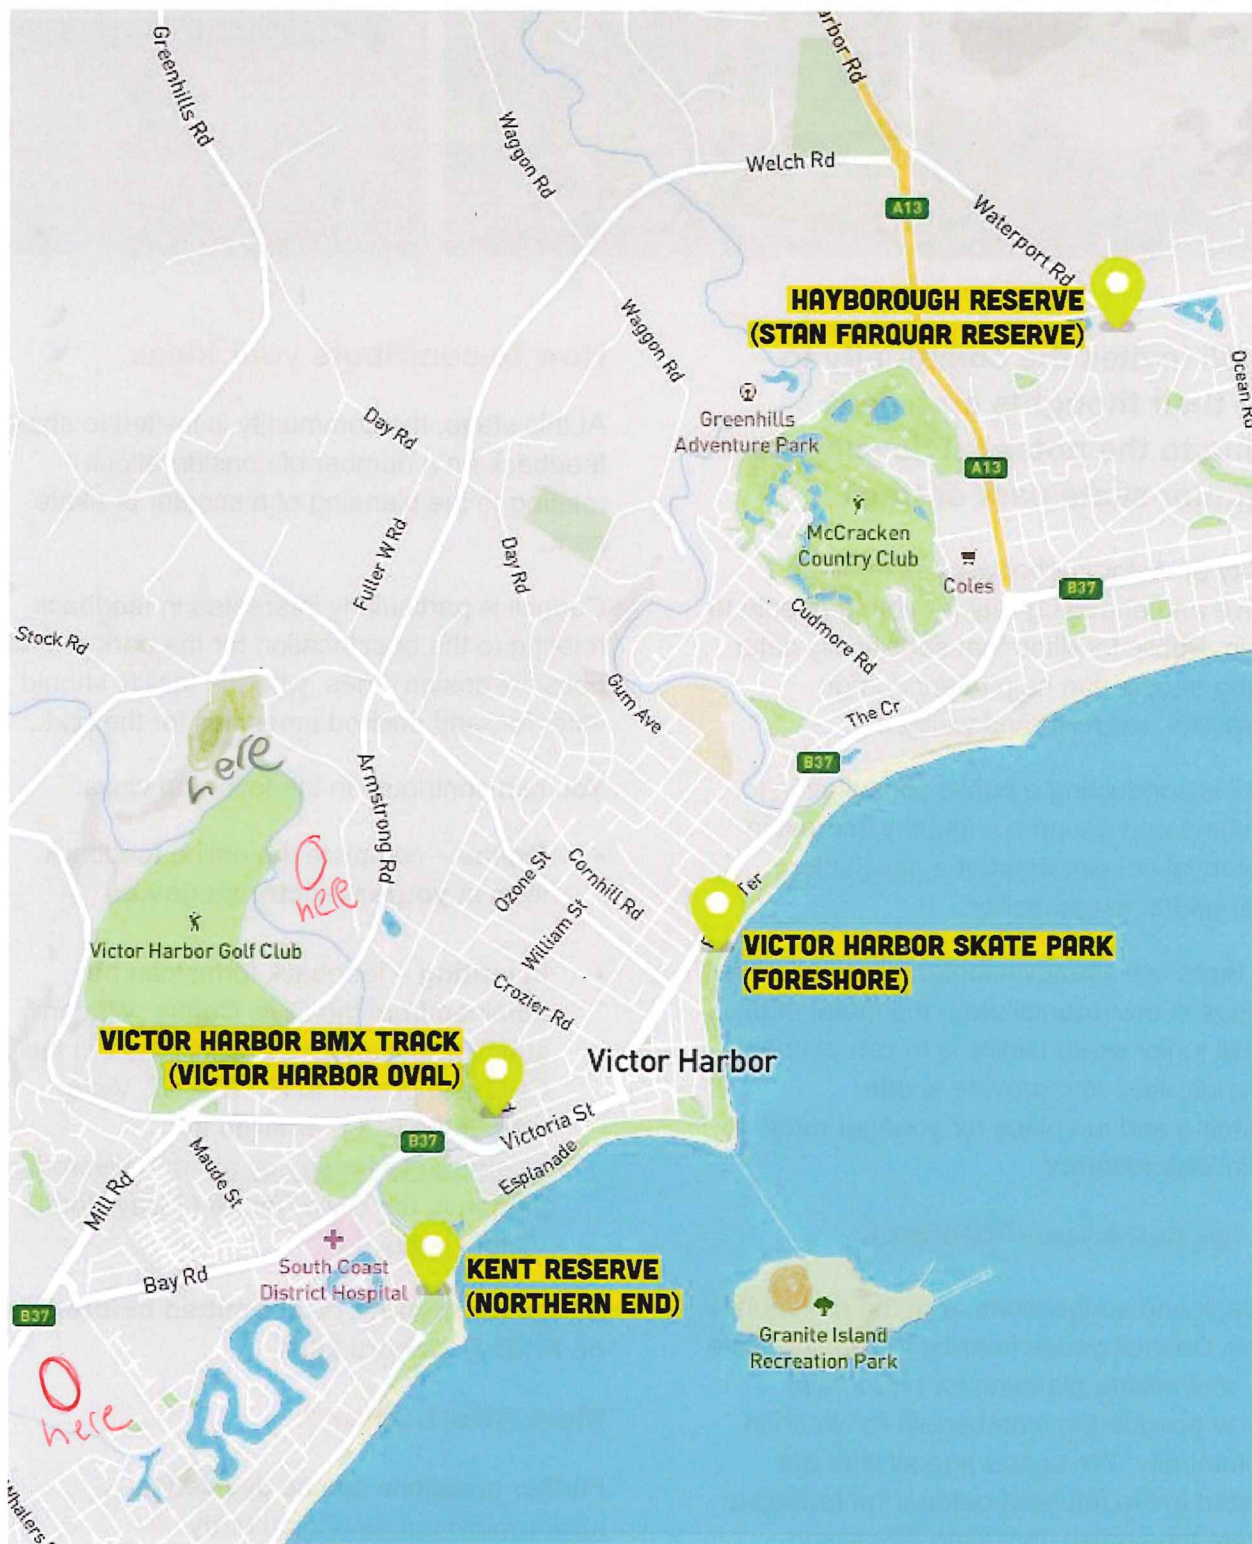

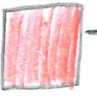

I don't ride my bike in Victor Harbor

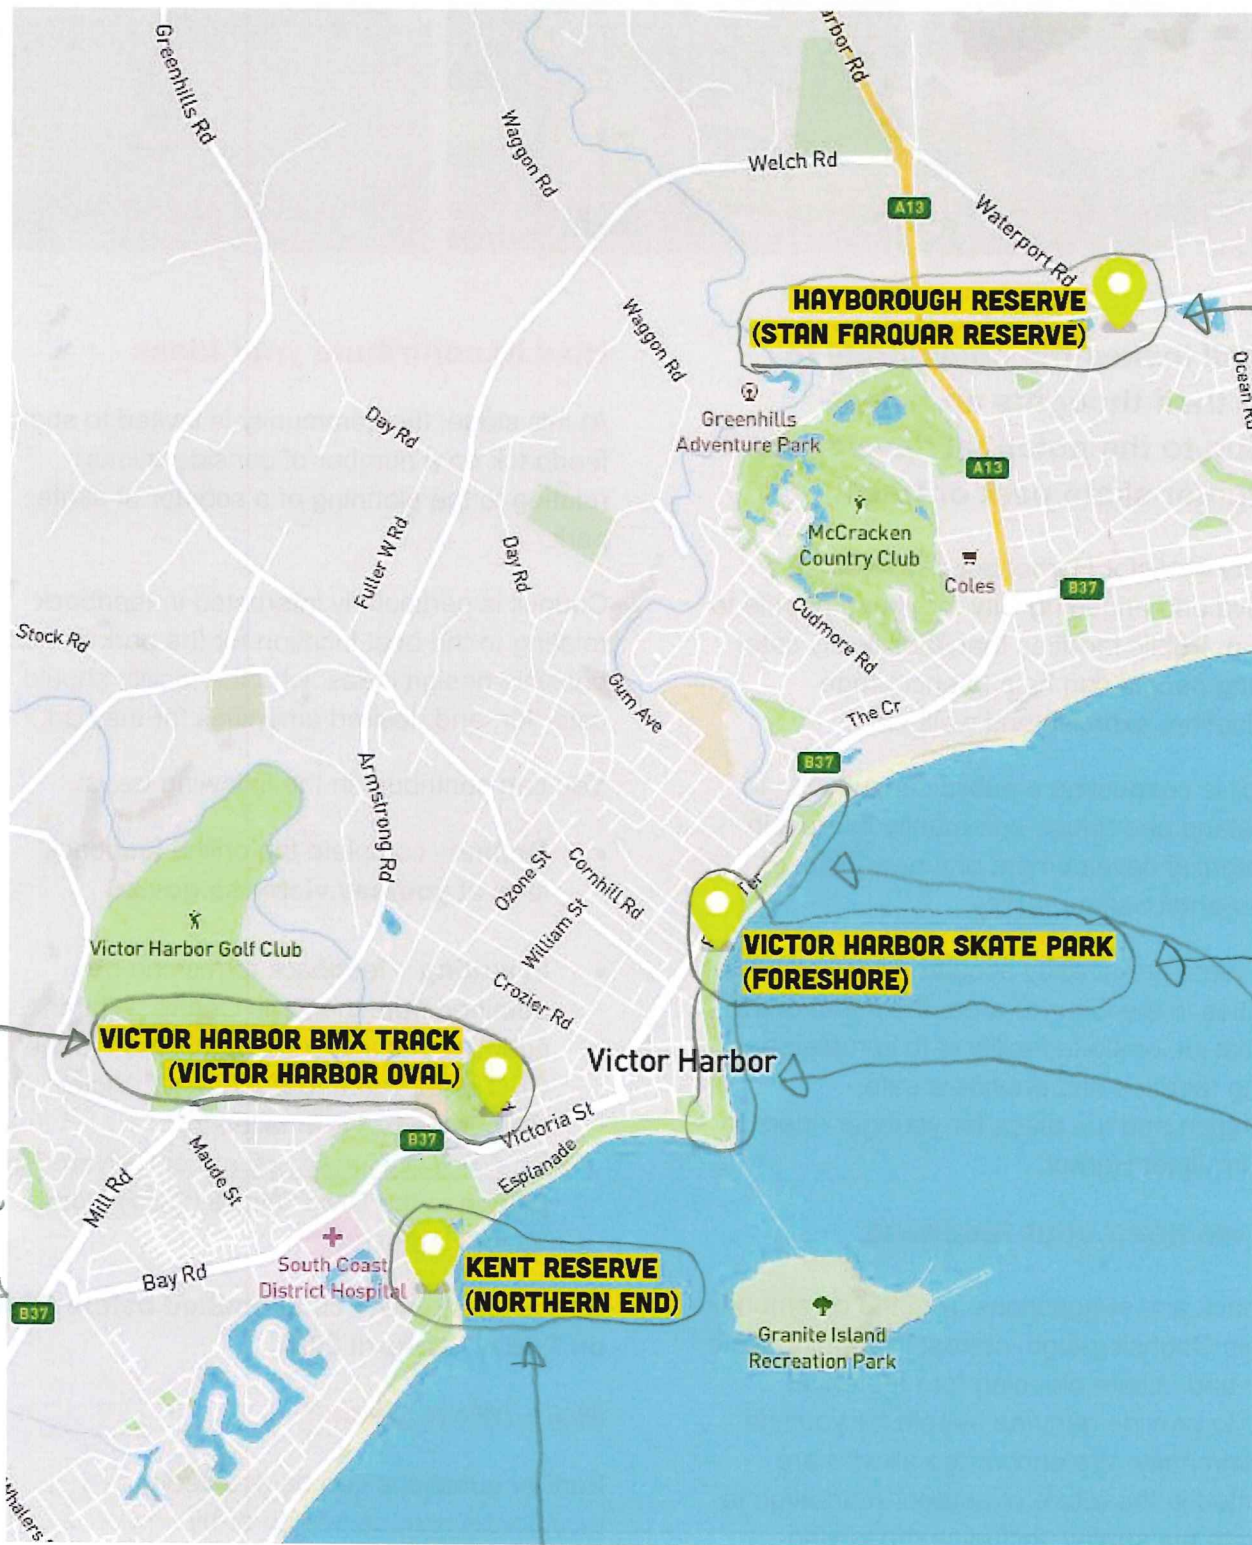

Potential Locations Map

-  - more areas to play golf
-  - more areas to play golf
-  - is where I want to go

Potential Locations Map

I like this one the most and I'd like to see it expand and see more things there.

I've never been here.

I've only been here once.

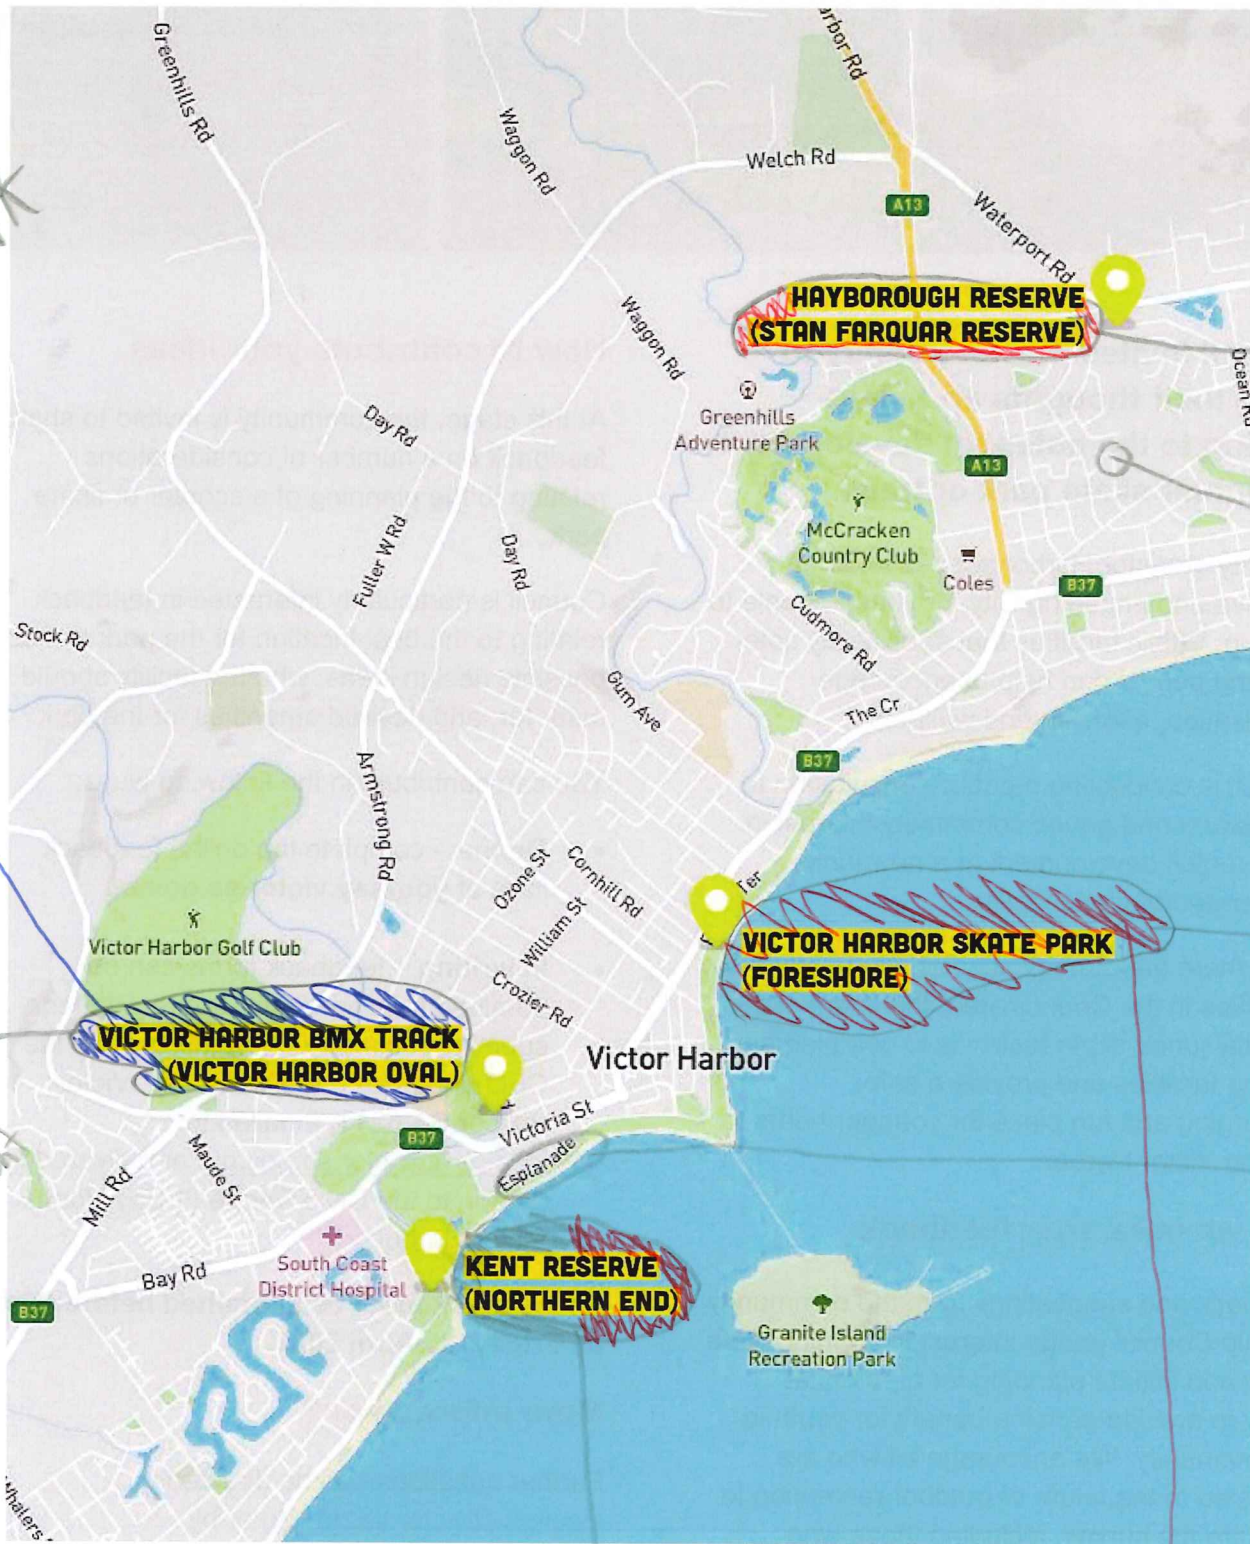

I sometimes walk along here.

I've never been here.

Potential Locations Map

~~Needs improvement~~

~~Used already~~

Where I want to have a skate park

Go there all the time, but needs some more equipment that's where I live 😊

This one needs more improvement

I like this idea the best

The esplanade is good, but a skate park near it

Perfect condition

-  should have more
-  I use
-  fix it

Potential Locations Map

Key
I use
to develop
they should add
a mini skate park
or a mini playground

need to
change the
dirt hills
+ here biking

they should
add a mini skate park

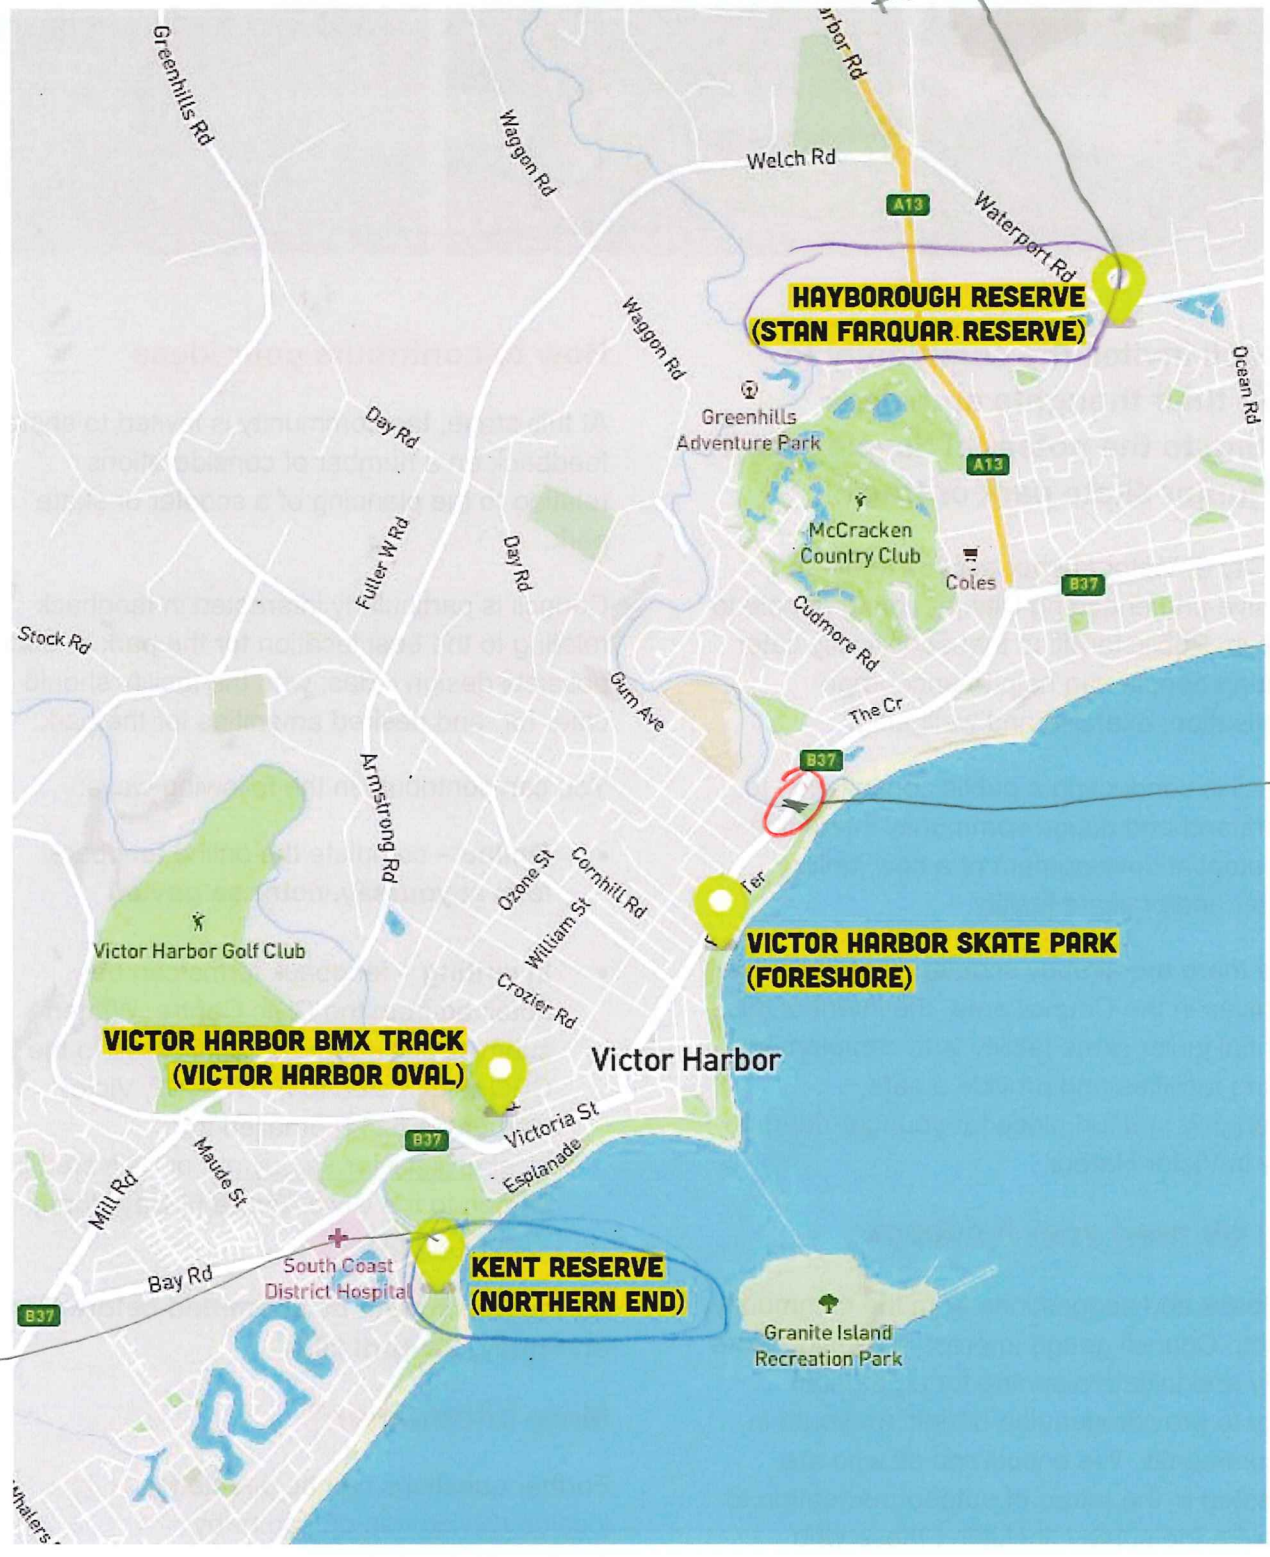

Potential Locations Map

make add
 more to
 it will be
 fun!

Kent Reserve
 in good
 condition

- Key
- In use
 - to develop
 - Places i
 ges that
 aren't skate
 parks.

Sometimes
 it ride to
 the bridge
 on the
 weekend.
